Local funds at work on Fairfield streets

Street striping project slated to begin soon on major thoroughfares

Fairfield, California (Thursday, November 12, 2015)—Local, voter-approved funding will soon be at work again on local roadways refreshing street striping on reaches of six heavily-trafficked roadways. The City is continuing a multi-year program to restripe arterial and collector streets.

A \$159,000 striping contract was recently awarded to the Centerline Striping Company, Inc. to restripe the following streets:

- Dickson Hill Road (North Texas Street to Manuel Campos Parkway)
- Pacific Avenue (Fairfield Avenue to North Texas Street)
- Pennsylvania Avenue (Illinois Street to Cunningham Drive)
- Sunset Avenue (East Travis Boulevard to East Tabor Avenue)
- Union Avenue (Ohio Street to Alaska Avenue)
- Westamerica Drive (Business Center Drive to Suisun Valley Road)

The City received bids from three contractors ranging from \$159,000 to \$176,000. Centerline Striping was the low bidder.

The planned work commences November 16 and will be done using a “rolling closure” to minimize traffic impacts on these busy roadways. Two-way traffic will be allowed, but drivers may experience minor delays as heavy equipment is used to remove and replace striping. Work should be completed in early December.

The November 2012 voter-approved local tax measure, Measure P, a 1% sales tax, is providing resources to protect safety, services, and quality of life in Fairfield. A portion of these voter-approved funds is being allocated for renewed

roadway maintenance, and restriping is an important component of providing safe and improved streets for residents and businesses in town.
